## **OUR MISSION:**

To build social service partnerships that respond creatively to the unmet needs of individuals, families and the community so that people are able to live independently, advocate for themselves, and better their own lives.

“I have worked for FSRI for almost twelve years, and I have achieved a tremendous amount of growth both professionally and personally here. It continues to enrich me to see all of the great work we do to help families reach their full potential in all possible areas of their life.”
